WHY CHOOSE THE HIREMAN

Going out of our way to help customers has been at the core of everything since the business was established in 1985 and is as true today as it was then.

We do our utmost to keep it simple by making hiring from us as straightforward as possible.

We offer a same-day service and will deliver within two hours when needed. It's hard to miss our brightly coloured, FORS compliant vans whizzing around.

We buy the best equipment available, maintain it to the highest standard, and ensure that our stock levels are high.

We provide everything you need on site, including PPE, power tool accessories and general site supplies, all at a great price.

We thoroughly check all contracts to ensure the accuracy of our billing, so that our customers don't have to.

Xtra is The Hireman's cross-hire and sales service, offering you whatever you want, whenever you want it.

We offer a broad range of general and industry-specific training courses from our state-of-the-art PASMA approved training centres.

We continually monitor our prices to make sure that we are competitive and offer great value for money.

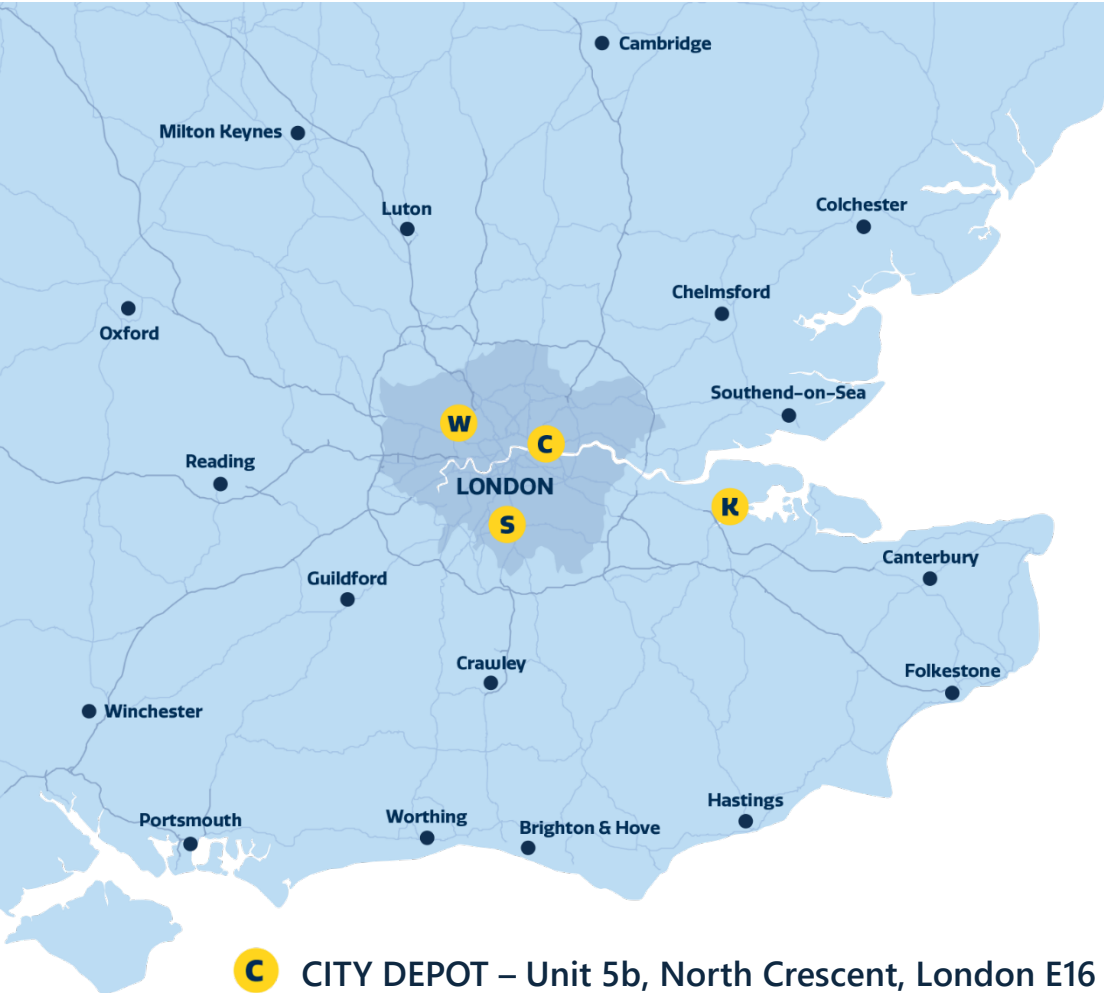

We've been a HAE SafeHire Certified Company since 2007. A BSI private standard that focuses on excellence in safety, environment, quality and customer service.

We are constantly improving our online portal. Giving you access to statements and invoices, on-hire lists, PODs and POCs with photos, and much more.

Using our WhatsApp ordering service is simple, keeping you and your team informed whenever and wherever you may be.

THE HIREMAN PORTAL

The Hireman Portal is our online account management service which gives our account customers the opportunity to see all their account information on demand and in real-time.

Using the portal you can access:

- Signed copies of paperwork, such as delivery and collection notes, and view them online or download as a PDF
- Your hire rates and download a copy into Excel
- Details of everything you have on hire and how long it's been on hire
- A complete hire history
- Inspection certificates for equipment delivered
- Invoices and print copies as needed

TOOLTRAK: Delivery notification service

The Hireman's driver tracking service. Easy as 1, 2, 3.

1. Order in a way that suits you: by phone, email, WhatsApp, or via our website.
2. ToolTrak sends you a text with an ETA and a link to a real-time map of your delivery vehicle.
3. Your tools arrive when you're expecting them, allowing you to focus on what you're doing.
